Voter Restrictions or Voter Fraud?

What are the rules and regulations in your state? Is there a move to make voting more accessible or more restrictive? Are there concerns about voter integrity, either through people voting illegally, bad counting practices or inaccurate voting machines?

Visit VOTE411.org and click on “Search by State & Topic” to research details for your state. Visit the Brennan Center for Justice, and—in the “Issues” column on the right-hand side—click “Voting Rights & Elections” and then “Student Voting” to find out about voting concerns for students. Record your findings in the chart below.
